WWW.CALLAHEAD.COM

CALLAHEAD® Corporation is proud to add to our long list of superior sanitation equipment, the **ROLLERHEAD®**. The Rollerhead is the ideal solution for when your job site or special event is in a remote location and/or there is limited space available and restroom facilities are required. The **ROLLERHEAD®** is an enclosed unit for guaranteed privacy with an optional retractable roof, interior urinal and toilet paper dispenser. The **ROLLERHEAD®** measures only 32" wide and 6.5' in height so it fits easily in elevators, doorways, high rise buildings, houses, cellars, garages, backyards, basements, on top of roofs, docks, boardwalks, through narrow alleys, gates and hallways and just about any other remote location in need of restroom facilities. The **ROLLERHEAD®** is equipped with four easy-to-grasp hand holds and high quality roller casters guaranteeing easy maneuverability through tight spots and remote locations. Even if your high rise construction site is not yet equipped with elevators, **CALLAHEAD®'s ROLLERHEAD®** includes a galvanized steel lifting hoist that hooks easily on to any crane to lift your **ROLLERHEAD®** to any floor you need. The **ROLLERHEAD®** is your answer for those hard to reach locations offering all the benefits and comfort of **CALLAHEAD®'s** standard size units with the added mobility you require. When only the best will do **CALLAHEAD®!**
